### **Report Summary:**

Field trips are valuable experiences that allow learners, to learn outside of the traditional classroom environment. Through field trips, learners can gain practical, real-world knowledge that complements and enhances what they learn through books and lectures. Field trips provide a hands-on approach to learning, encouraging the development of critical thinking skills, the ability to make connections between theory and practice, and a deeper understanding of the subject matter. Additionally, field trips offer opportunities for social interaction, team-building, and personal growth. Overall, field trips are essential for offering a holistic development and comprehensive educational experience.

This year BVRTSE provided the opportunity to Grade 7 learners to visit Mittal Farms.

Mittal Happy Cows Dairy Farms is a family owned and operated business with an objective to deliver farm fresh A2 ,Desi Cow Milk. It was established in the year 2016 with 600 employees currently engaged in the farm. The 85-acre farm reflects of love and affection for their moo friends. With state-of-the-art facilities, latest technologies and an impeccable natural environment, it helped to discover the goodness of fresh milk. Visiting a milk farm offered learners a unique educational experience that enhanced their understanding of agriculture, animal husbandry, and the food production process. It contributed significantly to their overall learning experience and preparation for future endeavours.

Learners had an insightful experience learning the whole process of : the nutrients provided for the cows, technology to monitor the quantity of their feed, cleaning and hygiene of the cows, breeding and milking ,to the door step delivery.

The enthusiastic learners started their trip with some interactive games and dancing to the peppy songs sung by their friends. Their eyes sparkled with curiosity as they embarked on this educational adventure.

Throughout the trip the children exhibited exceptional cooperation supporting each other and participating actively in all activities. Their eagerness to learn and explore was infectious creating a positive and vibrant

atmosphere laughter and smiles were constant companions highlighting the joy and happiness felt by the children during the field trip. Overall, their positive attitude and active engagement contributed to a truly memorable and happy experience for all. Learners showed the gratitude to the Mittal Farm by presenting a heartfelt gratitude greeting card to them.
